GOLD AND NICKEL ASSETS IN LOW-RISK JURISDICTIONS WITH FAST TRACK POTENTIAL

Huntsman Exploration (TSX-V:HMAN) offers diversified value creation via the long-term growth forecast in the battery metals market as well as the gold market as a hedge against inflation. The company's assets are in low risk, stable jurisdictions and have strong potential for rapid growth. Huntsman is led by an experienced team, has deep technical expertise, and is focused on advancing its assets, which collectively host nickel, copper, cobalt, PGE's and vanadium as well as the gold division.

Ni

NICKEL DIVISION

Intermediate-stage exploration project

Canegrass Project
Western Australia

Initial drilling has delivered **high-grade, near-surface results**

Multiple new targets identified

Top rated Australian jurisdiction

Continued "greening" of global economy supports strong, long-term nickel growth

Au

GOLD DIVISION

Intermediate-stage exploration project

Baxter Spring Project
Nevada

Bonanza grade targets

Bulk tonnage targets

Potential to fast-track exploration

Top rated US jurisdiction

Gold widely considered at early stage of a supercycle

SKILLED LEADERSHIP

Peter Dickie

President, CEO and Director

Mr. Dickie has spent over 35 years in the public and private corporate environment, and is the former President, CEO and director of NioCorp Developments, a company developing the largest super-alloy mineral deposit in North America. During his six years with NioCorp, Mr. Dickie developed key relationships with property owners and all levels of government in the project area, built a team of internationally recognized executives, raised tens of millions of dollars and graduated the company to the TSX. During this time, NioCorp's market capitalization grew from under \$5 million to over \$200 million.

Jeremy Ross

Director

Over 20 years of experience in venture capital and marketing for small cap to mid-tier mining. He was a Director of Fission Uranium Corp TSX from 2013 to 2017, as well as the Corporate Development Consultant for Fission Energy when it was named a Top 50 TSX-V company for its performance.

Joseph Meaghe

Chief Financial Officer &
Corporate Secretary

Chartered Professional Accountant (CPA, CA) and strong background as a CFO and Director in the mining sector.

Neil McCallum

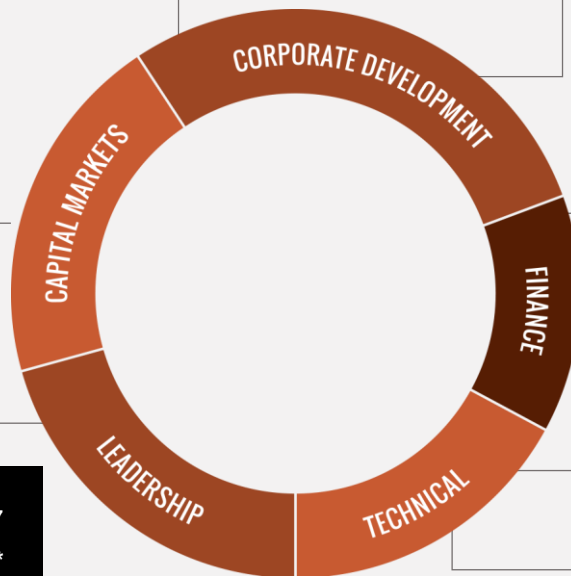

Director

Senior Geologist with over 15 years of experience and is a key member of the Dahrouge Geological Consulting Ltd. group. Mr. McCallum was extensively involved from an early stage in the NioCorp superalloy project in Nebraska alongside Mr. Dickie. He has a proven track record of identifying high-potential exploration projects and advancing them to the feasibility stage.

Nathan Tribble

Director

15 years of experience in exploration and mining, with a particular focus on gold and base metals. Past experience includes Senior Principal Geologist for Sprott Mining, Senior Geologist for Bonterra Resources, Jerritt Canyon Gold, Kerr Mines and Northern Gold.
